Dear Colleagues,

It is with great pleasure that I welcome you to the **8th International Symposium on Intra-Articular Treatment (ISIAT)**, held in the beautiful city of Bucharest.

This biennial event, which rotates across Europe, has become a cornerstone for professionals dedicated to advancing the field of intra-articular treatment. We are delighted to gather once again with leading experts, researchers, and clinicians to explore the latest developments in intra-articular access, therapeutic targets, innovative tools, and future directions.

This year's edition promises a rich and engaging programme, featuring keynote lectures and presentations by renowned specialists. We look forward to the stimulating discussions and interdisciplinary collaborations that will emerge throughout the symposium.

Participants will also have the opportunity to take part in hands-on courses covering a wide range of joints: an invaluable experience for both newcomers and seasoned practitioners aiming to refine their skills.

We are proud to offer a platform for sharing cutting-edge research through oral presentations and poster sessions, and we are thrilled by the diverse contributions from professionals across rheumatology, orthopedics, sports medicine, pain medicine, rehabilitation, and interventional radiology.

Our goal is to foster a dynamic and multidisciplinary environment that promotes dialogue, innovation, and synergy among all stakeholders in the intra-articular field.

Thank you for joining the ISIAT community in Bucharest. I am confident that this symposium will be an inspiring and rewarding experience for all.

Warm regards,

Prof. Alberto Migliore

Abstract book

All accepted abstracts selected for oral presentations will be published by Verduci Editore in the journal "Topics di Terapia Intra-Articolare" edited by Prof. Alberto Migliore and Prof. Sandro Tormenta. For more information please visit the website www.verduci.it

UEMS/EACCME Accreditation

This edition of the ISIAT Congress **will not be accredited** for Continuing Medical Education (CME) credits.

Information for presenters

Slide Center

A Slide Center will be available throughout the entire Congress for speakers and presenting authors of oral communications. It will be located in the Paris Room, on the first floor of the hotel, near the registration desk.

All speakers are required to prepare a PowerPoint presentation saved on a USB drive, and deliver it to the Slide Center the day before their talk, or at least two hours before the start of their session.

Personal laptops cannot be used for presentations.

Oral Presentations

All presentations must be prepared using Microsoft PowerPoint and formatted for PC use (Mac formats are not supported). The recommended slide format is 16:9.

Speakers and authors are kindly asked to ensure they have permission to use any images included in their presentations and to credit the source where appropriate.

Posters

All posters must have a maximum size of 70 cm (width) x 100 cm (height), with vertical orientation.

Poster Setup Time: October 2, 13.00–16.00

Poster Dismantling Time: October 4, after the end of the sessions

Posters must be attached to the board number corresponding to the number assigned to each poster. All posters should remain on display for the entire duration of the event.

Please note: The organizers are not responsible for any posters that are not removed by the end of the sessions

Posters will be exhibited in the foyer of the 1st floor and must remain displayed on the panels throughout the event, allowing participants to view them at their convenience.

Presenters are expected to be available at their poster boards during coffee breaks on October 3–4 to discuss their work and answer any questions.
